From a close calculation made our different Directories are opened and looked into Two Hundred and Seventy Million times every year. They are examined by our citizens and also strangers from all over the world; they are examined to find names and addresses of dealers in every line of business; there is no medium of advertising that compares with them, all the issues of all the Daily Papers in this city combined does not compare in number with the number of times that our Directories are consulted daily. This is the centennial year of our publications.

END-WOOD FLOORING,

MADE BY  
WOOD-MOSAIC CO.

Rochester, N. Y. (Salesroom, 821 Fifth Avenue, New York), consists in small blocks of various woods, set on end and securely joined by lead forced in the molten state into grooves surrounding the blocks. By the direction of the grain the greatest durability and hardness of surface are attained. Indeed, such floors are to ordinary parquet as improved Nicholson pavement is to the old plank road. The relatively minute division of the wood permits the greatest variety of design, and a materiality to the noiselessness and elasticity of tread by which the work is characterized. An illustrated catalogue, with miniature sample sent to any address.

Produce the same effect as wood staining and polishing, without its cost and labor.

NO SKILL REQUIRED TO APPLY IT.

Will stain old furniture without scraping off the varnish. Can be used as a Lacquer for Metal, China or Glass Ware. Will make imitation Stained Glass as clear as colored glass itself.

Send for circulars. Sample bottle by mail 35c.

## The Decorator and Furnisher Prize Competition.

✦ \$1,000 ✦ —————

## IN AWARDS FOR HOME EFFORT.

WITH a view to encouraging both amateur and professional effort, the proprietors of THE DECORATOR AND FURNISHER propose to offer during the next six months prizes to the amount of \$1,000 for Plans, Designs and Suggestions in the various departments of Decorative Art. The competition will be so arranged as to afford scope to the talents of every class possessing artistic taste, descriptive skill or manual dexterity. The smallest article of household use can be made to bear the stamp of artistic beauty without destroying its fitness for the purposes for which it is intended. There is in thousands of American homes latent talent which only needs encouragement to develop it, and if the rewards offered by the publishers of THE DECORATOR AND FURNISHER shall in any degree tend to such development the desired object will have been attained.
